Project Description For Phase III*

The Parking Lot Paving Project is the last phase of ECO's multiple phase renovation. Currently the parking lot at ECO is gravel. Paving the parking lot will eliminate the following issues:

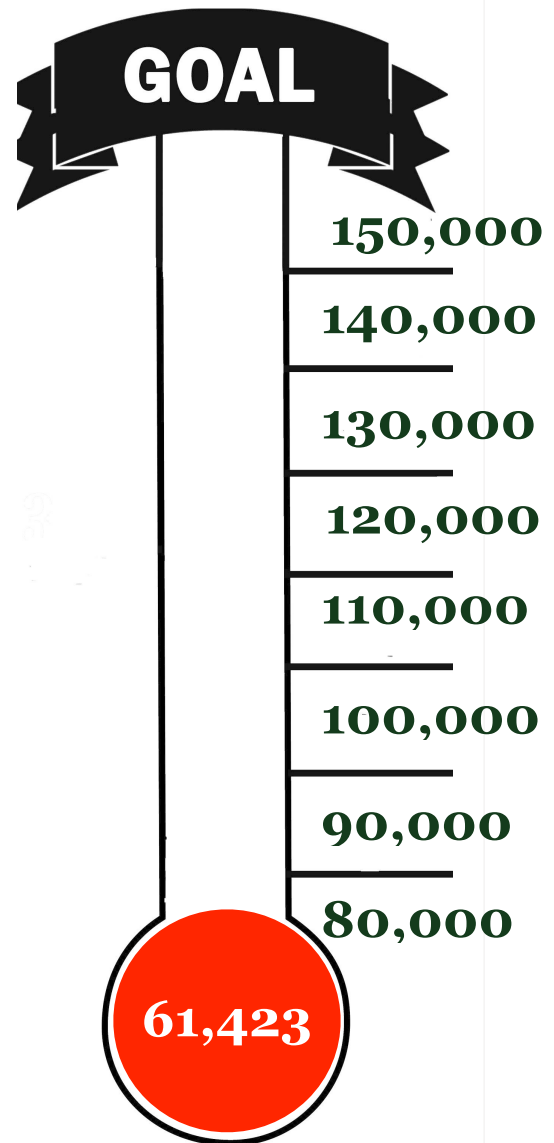

1. Build in the needed drainage system to eliminate standing water in the lot which freezes in the winter creating dangerous conditions.
2. Add additional lighting increasing the safety and security of our building.
3. Eliminate dust and dirt that is tracked into Edgerton Outreach from the gravel lot helping to protect the investment made into the remodeling of the building.
4. Eliminate major potholes that can cause damage to vehicles and create mud puddles on rainy days.

THANK YOU TO EACH OF YOU WHO HAVE ALREADY GIVEN TO PHASE III.

Phase I ~ Adding support in the basement, lifting the building to ensure that we were building on a sound and square foundation, and the needed electricity upgrades occurred in 2010.

Phase II ~ The full build out of the upper level into client offices, children's room, data room, conference room, and volunteer work space. Accessibility issues that impacted those with disabilities were addressed with the addition of the ramp, elevator, and construction of 4 ADA restrooms. Renovations completed in 2015.

IF YOU ARE A BUSINESS OR BUSINESS LEADER AND YOU WOULD LIKE TO SUPPORT EDGERTON OUTREACH WITH A GOAL GIFT, CALL SARAH WILLIAMS AT 608-921-2905 or DEB WOLNIAK AT 262.617.6458.

WE WANT TO HONOR YOU FOR SUPPORTING ECO'S WORK AND INVESTING IN THE PAVE THE WAY CAMPAIGN
