Edgerton Outreach
serving those in need

Director's Note

ECO is appreciative of our partnership with the Hunger Task Force of Milwaukee. ECO was awarded a commercial fridge and a commercial freezer through ARPA funds. The equipment was back-ordered for over a year!

The new equipment increases our storage capacity in the Food Pantry Distribution Room. They also allow volunteers better visual access to what is available to give out and makes the distribution process easier.

210 Update

The intricate process of raising the center of the building at 210 West Fulton Street was completed last week. This was achieved by gently jacking up the building; often at the rate of 1/2 inch per day. The construction crew related it to an intimate conversation, raise a bit and then let the building talk to you. The process is slow to protect the outer shell as the building settles into its new support. The center most point was raised 10 inches!

The warm weather has been good for the project. If you drive down Albion Street you can see a large hole with poured cement footings. In the near future an addition will be built on those footing that will house the new elevator and stairs for access to the upper two levels of housing.

Huge transformations will soon occur inside at 210. The old stairwell will be removed and the new walls in the meeting space, office, kitchen and storage areas will be framed out. The transformation of this historic building is being documented on ECO's website: www.edgertonoutreach.org.
